Hi Kuda

Ronelle and I now have internet access to the Landela bank account(s) with BancABC. If I am reading it correctly, there is USD10m in the account. Can we push this up to Sotic as a deposit for the Asa resources deal so that I can send the business administrators proof of funds?

We then just need to provide a loan agreement from Company/Person A to Landela. An unsecured loan agreement with profit share is the recommended one for this - quickest and less disclosure requirements.
I have a draft which I can share and/or execute subject to your approval.
